## PREPARATIONS FOR SOLDIERS' MAIL SERVICE

When writing to your soldier friends in the American army in France you will be required to pay only the same rate of postage as if writing to some one within the United States.

Addresses should contain in addition to the name of the individual, the division, regiment, company and organization to which he belongs. Be sure to write your own return address on the envelope or wrapper.

### Preparedness Complete

As soon as it was officially known that troops were to go abroad Postmaster General Bursell made preparations to meet the postal needs of our forces in foreign countries, and provisions were made for the establishment of postal agencies in Europe, the first being under the title of the United States Army Postal Service Agency, France. This was done through the postmaster general, who is authorized to establish postal agencies in foreign ports where the needs of our postal service require such a postal representation of this country, and in establishing the agency in France he commenced a service abroad that will without question prove of material advantage and convenience with respect to mails to and from the troops in the expeditionary force.

### Postage Rate Reduced

Following the appointment of the agent an order was promulgated by the department providing for a reduced rate of postage covering letters, post cards, and printed matter to and from the forces in France, and placing the matter of postage with our troops on the same basis as mails posted in the United States for delivery in our own territory.

Weeks ago a plan was worked out to provide an adequate mail service abroad, the principal base for which service is to be at some French port and from which base branch post offices will be controlled and supervised as the needs of the troops in the field may require.

Postmasters have been informed that letters, post cards, and printed matter originating in the United States or any of its possessions for transmission to the United States expeditionary forces in Europe are subject to the United States domestic classifications, conditions, and rates of postage, and that the same originating with such forces for transmission to the United States or any of its possessions are likewise subject to the same conditions, except as modified by the provisions covering indorsed "soldier's letter" and contained in section 405, Postal Laws and Regulations.

This means that where a field officer, usually a chaplain, indorses a letter "Soldier's letter," it may be transmitted without stamps, the postage being collected in this country, at the domestic rate.

### Only U. S. Stamps Valid

No other than United States postage stamps will be valid in the prepayment of postage on mail for the expeditionary forces.

Mail addressed to members of the expeditionary forces should bear the complete designation of the division, regiment, company, and organization to which the addressee belongs, as well as the address of sender, and be fully prepaid by postage stamps af-

fixed. Under no circumstances should the sender of mail matter to a member of the expeditionary forces attempt to designate on the addressed envelope the location of the unit.

According to instructions of the Post Office Department, the correct manner of addressing such letters would be as follows:

Return to  
Mrs. John Smith,  
Blank Street,  
New York City.  
John Smith, Jr.,  
Co. X, —Infantry,  
American Expeditionary Forces

## POSTAL INSURANCE SYSTEM SIMPLER

Post Office Department Orders New Form of Tag Receipt

Beginning July 1 the post office department began the use of a new form of tag for insured parcel post matter. The change is in line with the department policy of making the postal service increasingly convenient for patrons and increasing efficiency by reducing labor of employees.

Instead of three sections to be filled out before mailing insured parcel post matter, the new tag has only two. This will be appreciated by patrons who sometimes have been deterred from insuring parcels because of the bother of filling out the tags.

The sender is given one section of the tag for a receipt and the other section is retained as a permanent record in the office of mailing. A rubber stamp is used for placing the insurance data on the package, which is delivered to the addressee without the taking of a receipt.

## "ENEMIES WITHIN THE LINES"

Next Sunday night at the Congregational Church, Mr. Wilson will deliver a sequel to the patriotic address given last Sunday. The subject is, "Enemies Within the Lines." The public is urged to hear this discussion of some of our nation's dangers. Mr. Wilson will preach the morning service at eleven. Topic, "Ahaz the Faithless King." 2 Chronicles 28. Sunday School is held at 9:45 with classes for all.

## MAXIMILIAN, AET. X.

Many persons have admired a lifelike crayon portrait of a dog which has been displayed in the window of the News Office during the past fortnight, the work of Miss Ella Shepard Bush. The picture is a study from life of Maximilian, the little dog belonging to Miss Davis of Grand View Avenue. For the benefit of those who have been puzzled by the Latin inscription "Aet. X" it may be translated into the plain English, "age ten."

## DRAFTING REPORT PROVES A HOAX

Telegraphic reports of the result of the first draft of men for the army aroused keen interest on Thursday, but were later found to be groundless. The information came by telegraph and the numbers of the men supposed to have been drawn were given. Later reports were to the effect that the reports originated in some brokerage office and the authenticity of the reports was denied.

## WONDERFUL ARRAY OF TALENT OFFERED

Permanent Chautauqua In Los Angeles Will Make Fine Beginning

Probably the most ambitious and varied series of musical entertainments ever presented west of New York is comprised in the advance program of the Chautauqua Assembly and Musical Festival which will be opened in the new Billy Sunday Tabernacle, Los Angeles, on July 16.

Apart from the regular Chautauqua courses, and lectures and addresses on various subjects by many of America's leading men and women, the Assembly provides twenty musical evenings that simply scintillate with the names of famous artists.

Among these are Mme. Schumann-Heink, the most popular contralto in the world today; Mme. Jeane Jomelli, the dramatic soprano, who will feature in the newest songs of Charles Wakefield Cadman—America's most gifted composer—with Cadman himself at the piano; Mmes. Mariska Aldrich, Hesse-Sprotte, Helen Thorne and Bernice de Pasquali; Cecil Fanning, Jerome Uhl, and a crowd of other singers and players well known to concert-goers everywhere.

As well as these individual artists, the program contains other greater features, such as Mendelssohn's famous oratorio "Elijah," with two hundred selected voices, and four artists of the highest distinction in the grand quartette. Another great event will be the production of Verdi's "Aida" by the Los Angeles English Opera Company, with some two hundred and fifty artists in the cast, chorus and orchestra. The five leading church choirs of Los Angeles will hold a competitive series of choruses, and there will also be concerts by the Woman's Symphony Orchestra, the Turnverein and others.

In addition to this unprecedented carnival of twenty musical nights, there will be about sixty minor matinee concerts during the thirty days of the Assembly, and, of course, the usual educational and informative features of the regular Chautauqua Assemblies. All these courses, concerts and lectures will be furnished at rates that have heretofore been unheard of for entertainments of such a class, and season tickets are issued that reduce the charge to a quarter of the regular admission prices.

The Los Angeles Chautauqua, it should be stated, is a permanent local organization which hopes in time to achieve much for the intellectual advancement and entertainment of Southern California.

## CIVIC LEAGUE MEETING MONDAY

There will be a meeting of the Sierra Madre Civic League on Monday evening in the Woman's Club House. All members are urged to be present and a special invitation is extended to the general public to attend and become acquainted with the objects of the newly formed organization.

Rev. C. C. Wilson will address the meeting on the subject "Community Deadheads." In the course of his pastoral and lyceum work Mr. Wilson has made a particular study of community building and kindred topics and has spoken in many eastern cities on the subject. His talk will be particularly opportune.

## STATE TAX LIMIT LAW ENDORSED

In view of the referendum campaign which some school officials are conducting against the new tax limit law, Tax Payer's Association of California has issued a statement declaring that this law is the best measure for the protection of the taxpayers that has been passed by the legislature in the past ten years. The statement follows:

The purpose of Assembly Bill No. 1013 is to place a check upon extravagance in county affairs, which it effectively does by limiting the amount of taxes that can be levied in any year to an amount that will not exceed by more than 5 per cent the amount levied the year previous, unless necessity is shown to the State Board of Authorization—hence the name, the "tax limit law."

### Flexible Limit

The great beauty of the law lies in the fact that no new limit imposed by it is arbitrary, rigid or unchangeable. On the contrary, the law is expressly designed to meet changing conditions and requirements which may give rise to needs for more tax revenues.

The school officials of Los Angeles county object to the law on the ground that it may not give them as much money as they may need. This statement is made without the citation of facts. What are the facts?

In the year 1916-17 all school levies in Los Angeles county produced, within the meaning of the new law, \$7,843,172.90.

### Possible Increase

After making allowance for all county purposes as distinguished from school purposes, computation shows that for the year 1917-18, (without exceeding the 5 per cent limit) there may be levied for schools a total of \$8,214,328.46, or \$371,155.56 more than all school levies for last year. If the school officials need more than this, what possible objection can they have to showing the necessity to the Board of Authorization?

The facts that a proper limit law is needed, that one was passed and approved, and that it contains no rigid and unchangeable limits but that the amount of money to be raised under it may in every instance depend upon the amount needed, and not upon arbitrary standards, mere wilfulness or misdirected sentimentality, should cause careful people to pause and consider all phases of California's tax problem before they undo without the slightest attempt at a fair trial what the State Tax Commission, the Legislature and the Governor have done to put some degree of sanity into the matter of public expenditures.

## JOHN BOYD GIVEN HIGH SCHOOL DIPLOMA

John Boyd, now with the United States Army Aviation Corps, should have been included in the list of this year's graduates of Pasadena high school. Although he left school several weeks before the closing of the term he had completed his work to a point where the school authorities gave him a diploma and included his name in the 1917 class roll.

Mr. and Mrs. F. W. Nuetzel and Mrs. Julia Shannon were among the guests at a dinner dance given by Mr. and Mrs. Ray Mohler of Los Angeles last Saturday.

#### GETTING PASSENGERS' POINT OF VIEW

##### How One Railroad Tried Some of The Golden Rule Stuff

"Getting the passengers' point of view" is the object of a movement inaugurated on the Southern Pacific lines by Passenger Traffic Manager Chas. S. Fee. The plan calls for the distribution to passengers of a postcard, as they come on the Southern Pacific lines at Odgen, Portland and El Paso upon which they are invited to write comments and suggestions relative to the service. The card itself bears this explanation:

##### TO OUR PATRONS:

"It is our purpose to maintain an uniformly high standard in everything pertaining to railroad travel. We will appreciate your co-operation to this end, and if you will take the trouble to favor us with your suggestions it will be of great help to us.

"We are anxious to know how you enjoyed your trip—what scenic points appealed most to you—what feature of Southern Pacific service impressed you—how our trains and service compare with those of other roads over which you have travelled.

"It is always a pleasure for us to assist those who contemplate making a trip, and we shall be glad to plan itineraries for you or to furnish you with any travel information desired. If you have friends who would like similar information, give us their names and we will send it as soon as your request comes to us.

"After writing your comments please hand this card to the conductor before leaving the train, or mail it from your destination."

This plan is only an indication of the general effort being made by the Southern Pacific Company to take the public into its confidence, and secure the co-operation of patrons with a view of making the service the most perfect that energy and enterprise can produce.

#### IMPROVEMENTS AT ALPINE TAVERN

In an official circular issued jointly by D. W. Pontius, Traffic Manager, and C. H. Burnett, Manager Real Estate, Taxes and Resorts, the Pacific Electric Railway announces important improvements on Mt. Lowe, in line with the policy inaugurated last year of making Ye Alpine Tavern and Cottages one of the foremost mountain Resorts of the Pacific Coast.

"Owing to the great popularity of our housekeeping cottages," say the Railway officials, "we are now building six additional cottages of this class, including two 'Housekeeping Cottages De Luxe' which will be ready early in July.

"There will also be ready about the same time a new rustic 'Bungalow de Luxe,' to be operated in connection with the Tavern, containing six bed rooms and three private baths. These rooms will have hardwood floors, sleeping porches, French windows, large closets, hot and cold water, indirect lighting, bell-boy service and all modern conveniences.

"We are also building an additional Shower Bath for free use of guests, and are installing additional windows and screens in all cottages, making of them combination bed rooms and sleeping porches. These openings, however, can be closed in cool weather, so that each guest may have as much or as little ventilation as desired.

"We are also installing case-

ment sash and shutter doors on all hotel rooms, making these rooms very cool and pleasant in summer."

#### New Amusements

The circular further announces the completion of a new tennis court and Children's playground, which, in addition to the croquet court, new dance floor, Edison Diamond Disc talking machine, player piano, pool, billiards, circulating library and other free amusements, will afford exceptional facilities for the entertainment of guests. It is also stated that a resident hostess is now employed all the year round, whose sole duty it is to arrange dances, card parties, picnics and other informal gatherings and to see that all guests are acquainted and having a good time.

#### TO REACH SIERRA MADRE

By Trolley—Take Sierra Madre cars leaving hourly at Pacific Electric Station, 6th and Main, Los Angeles. The scenic ride is the most beautiful on the Pacific Electric system. From Pasadena, take Lamanda Park car, change at El Camino.

By Auto—From Los Angeles by way of North Broadway and Huntington Drive to Colorado St., Santa Anita Ave. to Foothill Blvd. Turn north at Sierra Madre or Baldwin Ave. Or, take any route through Pasadena, then east on Colorado St., to Santa Anita Ave., then by Foothill Blvd., and Sierra Madre or Baldwin Ave.

Sierra Madre's peculiar charm has been felt and praised by nearly everyone who ever visited and lived here. Many factors combine to make the charm potent—the sense of exaltation in life on the heights; the inspiring view; the invigorating air, kept pure by the currents moving continually up and down the slope; the feeling of intimacy with the nearby mountains; the ease with which a love for outdoor life and recreation is gratified; the great variety of available homesites; the conveniences of the city with all the joys of life in the country.

It is as a home community that Sierra Madre claims pre-eminence. Here you can have a small house and lot, a larger place with fruit and garden plot, or a few acres with an orchard. Everything grows well here and Sierra Madre has suffered less from frost than any other community.

No community has a higher type of citizenship. Socially and morally Sierra Madre ranks high. There is a cosmopolitan population recruited from all over the world.

Sierra Madre has made rapid progress in the movement for civic beauty, with clean streets and beautiful homes and gardens. Public health is guarded scrupulously. The Board of Trade and city administration are constantly at work upon enterprises which promote the community welfare.

## PRESIDENT'S CONTRIBUTIONS TO HISTORY

Every time President Wilson issues a statement on war topics he makes an addition to the finest literature of world statesmanship. His statement of America's reasons for entering the war and for various steps since then are models of logic and diction. Realization is coming to the Allies as well as to his countrymen that President Wilson's war papers are not the least of America's contributions to the common cause. They are an inspiration to the active participants. And they will have a vital influence on the history of the war as it is printed for future generations to read.

## FOR ACTIVE SERVICE

There's a man down in the valley who is thinking of applying for a pension on the ground that he and his wife have been fighting ever since the war began.

## NOW IS THE TIME FOR A TEST

Why does not congress raise some of the war taxes from idle land—land that ought to be under cultivation? That would force the owners either to use the land or dispose of it to some one who would use it. The farmers have been raising all they knew how with the means at their disposal. Why urge them to raise more when the simplest way to increase production will be to force the idle land into use by taxing it. If owners evade the tax by cultivating the land the national commissariat will be that much better off. That program is now being urged by a lot of people who would get mad if you called them Single Taxers.

ARE HOUSEWIVES AND SOLDIERS  
INFERIOR TO TIPLERS?

Isn't it a joke to talk to housewives about food economy when booze manufacture takes enough grain to supply the bread ration for 22,000,000 men?

When the army and navy were ordered "bone dry" the men in the service were not asked whether they liked the idea or not. But national prohibition is opposed for fear of dissatisfaction and disorder among the classes who are accustomed to their beer and wine regularly.

In the name of common sense, how long must this country toady to the beer guzzlers and wine sots? They aren't even asked to economize. Apparently their sacred appetites entitle them to more consideration than the housewife and the soldier.

## PROVING THE MOTIVE

America is in the war for humanity's sake. If any additional proof were needed, it was furnished by the Red Cross war relief subscription.

## SIMPLY CAN'T BE DONE

Are you one of the people who thinks the editor should be able to run the paper so as to suit everybody, especially yourself? For such as you the Redondo Reflex suggests that you try scratching some fellow on the spot where he itches the most. After you have tried it a few times you will appreciate the editor's position.

It might be added that just because your own particular itch is not being scratched is no reason for concluding that the newspaper is devoting all its energy to alleviating the itch on some other fellow's carcass.

NOT TOO MANY  
KELLY'S—BUT DON'T  
GET THEM MIXED

Editor of the News:

Lack of education is a misfortune, stupidity is a crime, the combination of the two should be made a felony and properly punished as such. There are man ypersons in Sierra Madre who seem to be afflicted with the combination and unless they soon mend their ways there is sure to be a breach of peace and I shall find myself in the clutches of Marshal Steinberger charged with assault on some citizen of this peaceful burg.

I worked for many years and when I found myself getting well along on the shady side of life foolishly thought I might take a few years rest. But No. These fiendishly uneducated, stupid persons appear to have entered into a conspiracy to prevent my having any real rest or enjoying the late morning nap which is

the great joy of all old newspaper men.

Just when I am reeling off about forty knots an hour of solid slumber, the telephone bell, just outside my chamber door, sets up a clatter. I spring from my bed and before my eyes are fairly opened grab the receiver and stifling a yawn, say hello!

A gentle female voice responds, "This is Mrs. Blank. Will you please leave me fifty pounds today and try, and get it here as early as you can? I am going to have company for luncheon."

"Fifty pounds of what?" I replied.

"Of ice, of course." This rather impatiently.

Well, I replied, who do you think you are talking to?

"Why! the ice man of course."

"Of course nothing, I answer.

If you are able to read and will consult the telephone book, you will find the ice man's name at the very bottom of the page, the last line, and you will also see

that he lives quite at the other end of town from my house, and that in addition to his name the address gives his occupation. Why then persecute a poor man who never did you wrong and asks only to be allowed to get his morning nap in peace, YOU HAVE THE WRONG NUMBER."

This is not an occasional thing, it occurs every day and many times a day. From 6 o'clock in the morning, my wife and myself are kept busy until we go to bed at night,—and we retire late—answering the calls intended for the "Ice Man," just because people are too lazy to look in their book, are too ignorant to read or too stupid to know that the ice man is not the person who is listed one line above him.

Those people are coaxing reprisals. They are more annoying than the Germans with their Zeppelins and their sub-marines. They should be arrested for conduct tending to provoke a breach of the peace. If I can only get some man on the line committing the error, the breach will come. I am in favor of female

suffrage and believe in giving to all women all the rights we men enjoy, except the one of getting a good licking when they deserve it. Perhaps when I am more advanced and they keep up this persecution I will be willing to grant them that privilege also.

Yours in hope or relief,  
GIBSON P. KELLY,  
NOT the ice-man.

"TARA GWIN" UNFERMENTED  
TABLE WINE

The greatest non-alcoholic reconstructive stimulant, blood-maker and tissue-builder. The brain and nerve food for the young and old. TARA GWIN is recommended by many leading physicians, and is used in conjunction with the St. Luke's system of treatment for tuberculosis, for which the discoverer received the thanks of the late King Edward VII. TARA GWIN gives greater power of resistance against disease and the effects of old age than any known tonic, and greatly increases the power of physical endurance. It is the stimulant for delicate young people, for men and women in middle life, and for all who wish to preserve health and vigor and beauty of youth. TARA GWIN is indispensable to athletes, tourists, and is the most valuable item in the camping kit.

Order from your grocer, druggist or wine merchant, or direct from the American agents, the NATIONAL NON-ALCOHOLIC WINES, LTD. California branch office: Mount Tara Springs, Sierra Madre.
